Office of The Boy Scouts of America,

In February, 1975, an application as assistant advisor for Explorer Post 208 was recieved by 208's Committee. A check on the applicants (James E. Hyslop) public records disclosed an Indecent Liberties conviction, involving two 12 year old boys.

A unanimous vote to reject the application was recorded at the April meeting of Troop Committee 208.

As this was the third attempt to join a group of 208 (first in the summer of 1974 and again in December of 1974) and in view of the report from Western State Hospital, we feel the office should be aware of this man's record. Copies are enclosed.

Re: HYSLOP, James Edward  
No. 15472

Dear Sir:

Mr. Hyslop was committed to this hospital, arriving on September 22, 1969 for a 90-day observation period to determine the presence of sexual psychopathy and ordering that we supply a diagnosis and recommendation concerning his future care, supervision, and restraint. Mr. Hyslop was placed in our special program for the observation and treatment of sex offenders and he was given a thorough workup which included psychological testing, psychiatric examination, a complete physical examination with appropriate laboratory tests; a careful review of his social and occupational history. He was placed for observation in the program and his progress, his effort, and his motivation and potential for treatment were carefully observed from day to day during the period he was in the hospital.

As the result of these tests and observation it was decided to present Mr. Hyslop to the Western State Hospital Senior Staff Committee with our observations and results. Consequently this was done on December 4, 1969 and after a review of the documentary material Mr. Hyslop was interviewed by the total committee. It was their opinion that he should be assigned the diagnosis of: Personality Disorder, Antisocial Personality with Homosexual Behavior. It was their further opinion that Mr. Hyslop shows no evidence of psychosis, that he shows no severe neurotic traits, and that, contrary to the impression which has been gained by others in the past, Mr. Hyslop is not mentally retarded, but has the normal capacity to learn, although he suffers to some degree from limited learning experiences which he had in school due to the conviction on the part of many that he was, in fact, unable to learn. It was further the decision of the Senior Staff Committee that there is no medical evidence for the allegation once made some time ago that Mr. Hyslop might suffer from a convulsive disorder.

The observations we have made of his behavior and our testing, as well as review of the history in the case of Mr. Hyslop is that he has behaved deviantly most of his life, committed minor criminal acts and has on the whole not been responsive to the usual social pressures. He has had a very poor work history, has been pretty generally quite irresponsible.

CONF007556

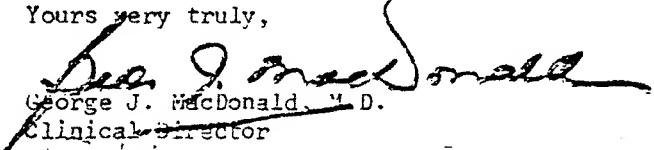

DYKES\_I\_005427

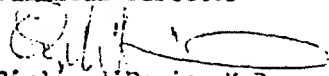

December 12, 1969

Although we recognize that he shows a strong propensity and probability to act out in a sexually deviant way, we also recognize that this is true of any kind of antisocial or unacceptable behavior. Since his total personality difficulties encompass much more than sexually deviant behavior, and in view of the fact that the acts in question represent only a small number of incidences, it was the decision of the Senior Staff Committee that prime consideration should be given to Mr. Hyslop's own motivation. Our experience with him in the program was that from the very outset he refused to accept any of the values of the group; he resisted working with the group; he did a great deal of manipulating with newly arrived members in an attempt to discourage them from applying themselves to treatment while insisting that he, himself, did not want to participate in the program and was desirous of returning to the court to face the consequences of his behavior. He denied having any motivation to change, and his behavior supported this contention. The Senior Staff Committee therefore decided that because of the fact of Mr. Hyslop's antisocial acting out and because he shows no motivation, despite many encouragements on the part of the staff to change his behavior, and since he was actively divisive in the work we are trying to do with other sex offenders, that we should return him to the court with the recommendation that he should not be recommitted to this hospital for treatment as a sexual psychopath. Nevertheless, it is our feeling that there is a good possibility that Mr. Hyslop might again commit offenses similar to the ones which brought him to the attention of the authorities. It might be of some value to Mr. Hyslop if he were required to face the more serious consequences of his behavior in the hope that this might have a deterrent or corrective influence upon him.

Thank you for referring this case to us. We remain,

Yours very truly,

  
George J. MacDonald, M.D.  
Clinical Director

SEP 19 1969  
AGNES L. THOMAS, CLERK  
By JO ANN MILLIS, Deputy

Comes now GARY G. McGLOTHLEN, Deputy Prosecuting Attorney  
for Yakima County, Washington, and alleges as follows:

1.

That JAMES EDWARD HYSLOP is charged in the above-entitled  
Court with having committed the crime of two counts of Indecent  
Liberties on or about the 6th day of September, 1969, in Yakima  
County, Washington, by an Information filed on the 12th day of  
September, 1969.

2.

That JAMES EDWARD HYSLOP is a sexual psychopathic person  
predisposed to the commission of sexual offenses in a degree con-  
stituting him a menace to the health and safety of others; that the  
said JAMES EDWARD HYSLOP is not a mentally ill person.

3.

That your petitioner has investigated the acts and conduct  
of the above-named defendant, JAMES EDWARD HYSLOP, and that by  
reason thereof has reason to believe that said JAMES EDWARD HYSLOP  
is a sexual psychopathic person, as defined by Chapter 25, Laws of  
the State of Washington, enacted in 1959, Amended Chapter 65, Section

DYKES\_I\_005429

1 That the facts upon which the foregoing allegations are  
2 made are as follows:

3 That the defendant, JAMES EDWARD HYSLOP, on the 6th day of  
4 September, 1969, contacted by telephone, a male child of the age of  
5 twelve years. During this conversation arrangements were made to  
6 meet at a certain park that afternoon. Around 4:00 o'clock in the  
7 afternoon of September 6, the defendant and twelve year old boy met  
8 at the corner of the park and a short time later another twelve  
9 year old boy joined them. Shortly thereafter, the two boys proceeded  
10 to the park restroom where the act of oral sodomy was committed on  
11 each of them by the defendant, JAMES EDWARD HYSLOP.

12 It is your petitioner's belief that these facts per se would  
13 support an examination under the sexual psychopathy laws.

14 WHEREFORE, your petitioner prays that a hearing be held on  
15 this petition for the purpose of committing the said JAMES EDWARD  
16 HYSLOP to a public institution for observation as to the existence  
17 of defendant's alleged psychopathy, and for care and treatment as a  
18 sexual psychopath, and that the said JAMES EDWARD HYSLOP be committed  
19 to such facility as may be designated by the Washington State De-  
20 partment of Institutions for a period of not to exceed ninety (90)  
21 days for such observation, care and treatment as a sexual psychopath.
